**Case #:** ZBA 2015-09

**Date:** ~~March 12, 2015~~ December 9, 2015

**Recommendation:** Conditional Approval

---

**PLANNING STAFF REPORT**

---

Changes from the original report are highlighted in yellow. Portions of the original report that no longer apply are ~~crossed out~~.

**Site:** 53 Josephine Avenue

**Applicant Name:** Randall Conrad & Christine Dall

**Applicant Address:** 1116 Massachusetts Avenue Lexington, MA 02420

**Owner Name:** Randall Conrad & Christine Dall

**Owner Address:** 1116 Massachusetts Avenue Lexington, MA 02420

**Alderman:** Mark Niedergang

**Legal Notice:** Applicants and owners, Randall Conrad and Christine Dall seek to revise a Special Permit approved on March 18, 2015. The proposed revision is to the plans for the rear 3-story decks and stairs. RA Zone. Ward 5.

**Dates of Public Hearing:** Zoning Board of Appeals — ~~March 18, 2015~~ December 9, 2015

---

**I. PROJECT DESCRIPTION**

1. **Subject Property:** The subject property is a 3,360 square foot lot. The structure was a three-family that was damaged by a fire in September of 2014. Since that time, the property has been vacant. Around January of this year, the gable roof was removed.

2. **Proposal:** The proposal is to reconstruct the property with a gable roof. A cross gable will be added to the left side of the home with a small dormer behind it to provide head height to the interior stairs. A dormer will be added on the right side of the home behind the cross gable. ~~The rear decks on the home will be rebuilt but the stairs reconfigured to provide a supplemental means of egress. The~~ Applicants have applied to change the original rear deck and secondary egress plans. The Applicants now propose longer decks, the removal of the spiral staircase and the addition of a small set of steps from the

first floor deck to ground level. The building shall be sprinkled, eliminating the need for the three stories of secondary egress spiral stairs on the rear decks. If the budget permits, there will also be a second story front porch added. These exterior changes will allow interior changes to make better layouts to the existing 2 bedroom apartments.

3. Green Building Practices: The energy performance of the structure will be upgraded to comply with the stretch code including insulation, windows with low emissivity argon glazing and high efficiency HVAC systems.

4. Comments:

*Fire Prevention*: ~~Has been contacted and has no comments at this time.~~

*Wiring Inspection*: Due to the extensive damage at the property, the building will have to be rewired.

*Ward Alderman*: Has been contacted and has no comments at this time.

## II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Staff finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

Per the SZO, lawfully existing nonconforming structures may be enlarged, extended, or renovated by Special Permit. The cross gable, new dormers, second story front porch, rear egress stairs all require a special permit.

In considering a special permit under §4.4 of the SZO, Staff find that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure.

The Planning Office is in the process of adoption of a new zoning code. This property will change from an RA zone to Neighborhood Residential. The modifications requested are by-right in the proposed code. There has been one condition recommended as part of this report, that the site maintain the current pervious area of 34.2%. A new condition has been added that the building shall be sprinkled, to underscore its importance.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promoting the health, safety, and welfare of the inhabitants of the City of Somerville; to conserve the value of land and buildings; to preserve the historical and architectural resources of the City; and to encourage housing for persons of all income levels.

The proposal is consistent with the purpose of the district, which is, “To establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

Josephine Avenue has primarily gable-end residences with two and three family uses. The property is directly across from Brown School and has quick access via the community path to Davis Square.

There are little to no impacts of the proposal and will improve a structure that has sat vacant due to a fire for over ~~6 months~~ one year.

5. Housing Impact: *Will not create adverse impacts on the stock of existing affordable housing.*

The project will have no impact of the stock of existing affordable housing.

6. SomerVision Plan: *Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville's neighborhoods, transform key opportunity areas, preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups; and, make Somerville a regional employment center with a mix of diverse and high-quality jobs. The areas in the SomerVision map that are designated as enhance and transform should most significantly contribute towards the SomerVision goals that are outlined in the table below. The areas marked as conserve are not expected to greatly increase the figures in the table since these areas are not intended for large scale change.*

The project does not directly contribute to the stated metrics of the SomerVision plan but will allow a property owner to improve their property in a modest way.

### III. RECOMMENDATION

#### Special Permit

Based on the materials submitted by the Applicant, the above findings and subject to the following conditions, the Planning Staff recommends **CONDITIONAL APPROVAL** of the requested **SPECIAL PERMIT**.

The recommendation is based upon a technical analysis by Planning Staff of the application material based upon the required findings of the Somerville Zoning Ordinance, and is based only upon information submitted prior to the public hearing. This report may be revised or updated with new recommendations, findings and/or conditions based upon additional information provided to the Planning Staff during the public hearing process.
